## Detailed Key# Prophetic Alert: The Escalation of the Israel-Iran Conflict and the Natanz Prediction

### Introduction

This document summarizes a prophetic address regarding the intensifying military conflict between Israel and Iran. The Two Mega Prophets of YAHWEH frames current geopolitical events as the fulfillment of long-standing visions, specifically warning of an imminent, massive explosion at the Natanz nuclear facility and the subsequent return of the Messiah.

## Detailed Summary of Prophetic Claims and Events

### The Prophetic Context of Global Upheaval

The speaker asserts that their mission involves a "violent shaking" of the earth, a theme originating from a 2004/2005 vision involving two angels and a scroll of destruction. This spiritual framework encompasses recent global crises, including the COVID-19 pandemic, the war in Ukraine, and various natural disasters like tsunamis and earthquakes in Chile and Mexico. The current conflict between Israel and Iran is presented not as an isolated political event, but as a primary objective revealed by the Lord at the start of the speaker's ministry.

### Current Military Escalation and Tactical Sophistication

Recent reports indicate a significant escalation in military activity, including a massive assault involving

over 100 aircraft. The Mightiest Prophets note specific incidents, such as the reported downing of three US fighter jets in Kuwait—attributed to "friendly fire" from automated air defense systems—and severe briefings emerging from the Pentagon. A hallmark of this "historic war" is the use of advanced technology; specifically, the use of artificial intelligence to mimic the voices of supreme leaders to lure targets into meetings, allowing for precision strikes coordinated from Israel.

### The "Part Two" Prophecy: The Natanz Explosion

The core of the current message focuses on the transition from "Phase One" (which occurred last year) to "Phase Two" of a prophecy originally delivered in Mbeya, Tanzania. The Two Mega Prophets have communicated these warnings directly to Israeli ambassadors and members of Parliament in Jerusalem. The climax of this prophecy is a predicted massive explosion at the Natanz nuclear power station, which is described as potentially the "biggest fire on the earth." This event is expected to further destabilize the global economy, particularly concerning oil passages through the Strait of Hormuz.

### Spiritual Mandate and the Coming of the Messiah

The Two Mega Prophets emphasizes that these wars and technological displays are directly linked to the "glorious coming of the Messiah." The global disruption—including millions of stranded travelers and economic instability—is intended to serve as a final "trumpet" call to humanity. The message urges listeners to align their lives with spiritual standards of righteousness and holiness in preparation for redemption .

### To-Do

- **Actualize spiritual standards:** Individuals must pursue righteousness, holiness, and repentance immediately.
- **Submit to prophetic authority:** Follow the instructions and warnings provided by the prophets to navigate the end times.
- **Monitor Natanz:** Watch for the predicted major explosion at the nuclear power station as a sign of the prophecy's fulfillment.

### Conclusion

The document concludes that the world has entered a "very powerful time" where sophisticated warfare and prophetic fulfillment converge. The Two Mega Prophets maintain that the current escalation in the Middle East is the final precursor to the return of the Messiah, necessitating immediate spiritual preparation.
